

MPG data exploring

maesh

5/2/2021

Introduction

In this course I explore the relationship between a set of variables and miles per gallon (MPG)
Particularly I focus on the following two questions:

1. Is an automatic or manual transmission better for MPG?
2. Quantify the MPG difference between automatic and manual transmissions.

exploratory data analysis

processing data

```
## tibble[,11] [234 x 11] (S3: tbl_df/tbl/data.frame)
## $ manufacturer: chr [1:234] "audi" "audi" "audi" "audi" ...
## $ model       : chr [1:234] "a4" "a4" "a4" "a4" ...
## $ displ       : num [1:234] 1.8 1.8 2 2 2.8 2.8 3.1 1.8 1.8 2 ...
## $ year        : int [1:234] 1999 1999 2008 2008 1999 1999 2008 1999 1999 2008 ...
## $ cyl         : int [1:234] 4 4 4 4 6 6 6 4 4 4 ...
## $ trans       : chr [1:234] "auto(l5)" "manual(m5)" "manual(m6)" "auto(av)" ...
## $ drv         : chr [1:234] "f" "f" "f" "f" ...
## $ cty         : int [1:234] 18 21 20 21 16 18 18 18 16 20 ...
## $ hwy         : int [1:234] 29 29 31 30 26 26 27 26 25 28 ...
## $ fl          : chr [1:234] "p" "p" "p" "p" ...
## $ class       : chr [1:234] "compact" "compact" "compact" "compact" ...

##
## auto manual
## 157 77

compare hwy,cty vs other valuables

(Graphs are shown in appendices)

As the graph shows, type of transmission,engine displacement, number of cylinders, drive type, fuel type and vehicle class seems to affect on city and highway mileage. It cannot be judged whether Year of manufacturing affect on mileage from the graph.

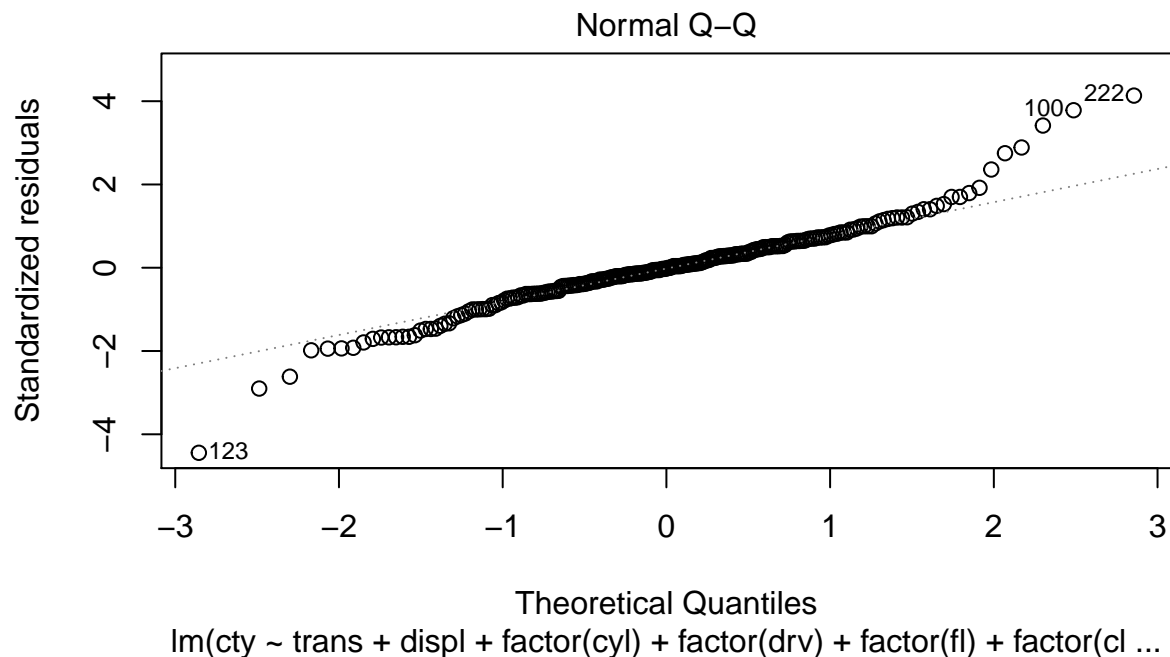

According to the graphs below, city mileage and highway mileage has the similar characteristics. Here I focused on city mileage.

model selection

I created several fitted model which contains variables of mpg datasets. Then I compared these fitted model by using analysis of variance (anova) to tell which variables are necessary to explain mileage change.

```
## Analysis of Variance Table
##
## Model 1: cty ~ trans
## Model 2: cty ~ trans + displ
## Model 3: cty ~ trans + displ + factor(cyl)
## Model 4: cty ~ trans + displ + factor(cyl) + factor(drv)
## Model 5: cty ~ trans + displ + factor(cyl) + factor(drv) + factor(fl)
## Model 6: cty ~ trans + displ + factor(cyl) + factor(drv) + factor(fl) +
##           factor(class)
## Model 7: cty ~ trans + displ + factor(cyl) + factor(drv) + factor(fl) +
##           factor(class) + factor(year)
##   Res.Df    RSS Df Sum of Sq      F    Pr(>F)
## 1      232 3841.7
## 2      231 1499.9  1   2341.82 976.9626 < 2.2e-16 ***
## 3      228 1340.0  3    159.94  22.2416 1.394e-12 ***
## 4      226 1043.0  2    296.99  61.9484 < 2.2e-16 ***
## 5      222  676.5  4    366.44  38.2183 < 2.2e-16 ***
## 6      216  567.4  6    109.12   7.5873 2.137e-07 ***
## 7      215  515.4  1     52.05  21.7145 5.546e-06 ***
## ---
## Signif. codes:  0 '***' 0.001 '**' 0.01 '*' 0.05 '.' 0.1 ' ' 1

## Warning: not plotting observations with leverage one:
##      107
```

As the analysis of variance shows, it can be said that fit7c (contain 7 variables: trans,displ,cyl,drv,fl,class and year) is the most representative fitted model.

From the Q-Q plot, there are several outliers (row no. 100,107,123,222) These outliers are removed and fit7c is calculated again.

##	(Intercept)	transmanual	displ
##	32.508	0.260	-1.151
##	factor(cyl)5	factor(cyl)6	factor(cyl)8
##	-1.292	-2.037	-2.680
##	factor(drv)f	factor(drv)r	factor(fl)e
##	1.505	0.615	-11.642
##	factor(fl)p	factor(fl)r	factor(class)compact
##	-8.827	-7.776	-2.813
##	factor(class)midsize	factor(class)minivan	factor(class)pickup
##	-3.039	-4.856	-4.772
##	factor(class)subcompact	factor(class)suv	factor(year)2008
##	-2.976	-4.467	1.198

Coefficient of transmanual was 0.260. It suggests that Manual transmission is better for MPG by 0.260 miles per gallon.

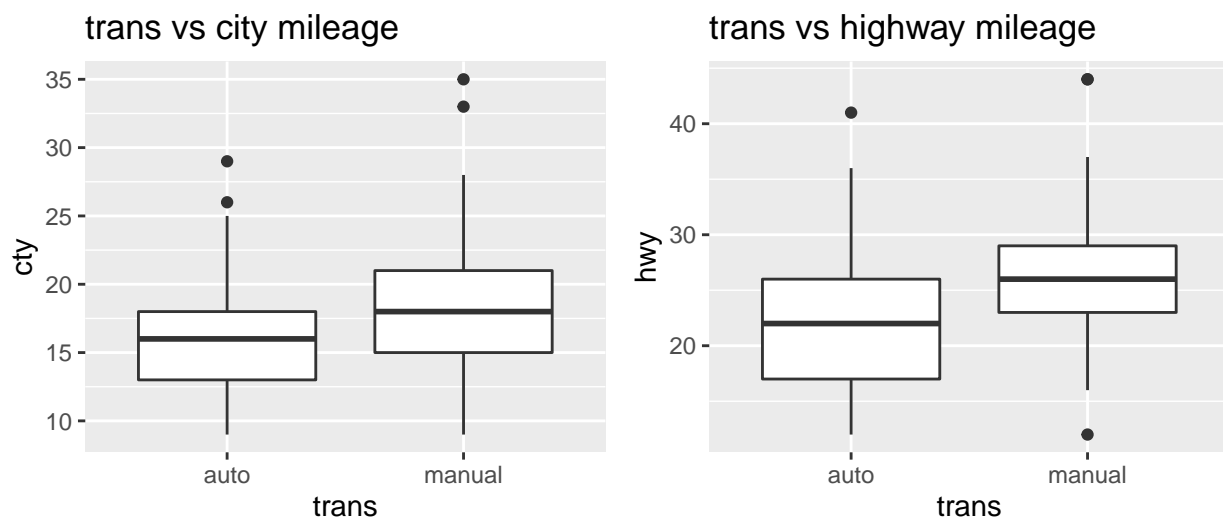

Conclusion

I conducted exploratory analysis and showed that manual transmission is better for MPG. Then I fitted the models to infer how much manual transmission is better than automatic transmission. As the model showed, manual transmission is better for MPG by 0.260 miles per gallon in city.

It is necessary to analyze how much manual transmission is better in highway in next study.

Appendices

compare hwy,cty vs other valuables in graph
